

BRACKETS

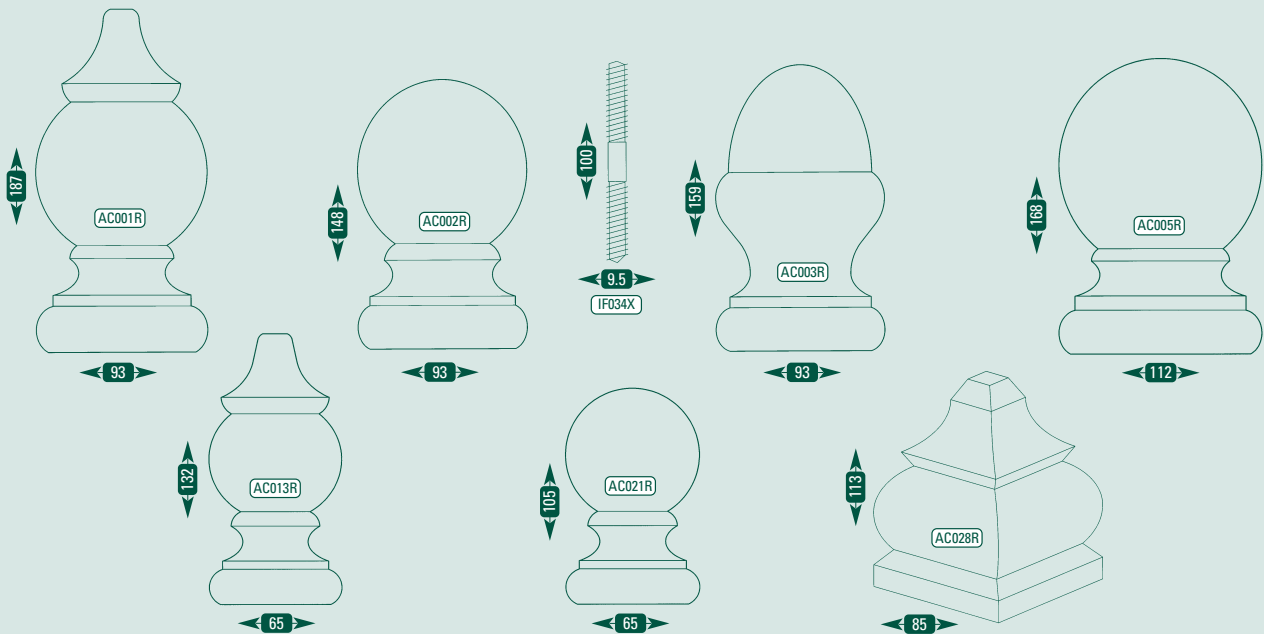

Brackets : Used where a post meets the fascia, a decorative bracket is a great way to enhance many features; including verandahs, pergolas, carports and gazebos. The large variety of designs available will suit most styles.

ALL BRACKETS - THICKNESS:32

FENCE POST CAPITALS

Fence Post Capitals : To give your picket fence that finishing touch, choose from this range of capitals to attach to the top of the supporting posts. The use of the double ended dowel screw will make for an easy attachment.
